LAT: 4°21'3.05" | LONG: 55°38'56.20"E

A superbly remote paradise set out into the warm waters of the Indian Ocean, Cousine Island is truly part of another era. A place where relaxation reigns supreme, and the wondrous natural world surrounds you in all its unspoiled glory. Found amid the strewn handful of granite rocks known as the Seychelles, the seclusion of Cousine is mirrored on the island itself – only 4 luxurious villas are spaced around its more than 60 acres, carefully designed to create an atmosphere of maximum privacy and romance.

Each villa offers a view of Cousine's unforgettable white sugar-sand beach, and is well-equipped with amenities such as his/hers showers, a Jacuzzi, and an entertainment centre. A spa provides the ultimate in pampering, and the resort's Pavilion features a bar, luxurious pool, library, lounge and a spacious dining area where you'll discover delicious Creole and international cuisine, prepared by Cousine's expert chef.

However, it's not a longing for the comforts of civilization that drives guests into this island's arms – but a desire to experience nature in its purest and most breathtaking forms. Of this, Cousine has no shortage. A conservation success story, the island's ancient forests have been carefully restored with native flora and fauna, and the island serves as an important nesting ground for turtles and many sea and land birds.
